

VEHICLE FOCUS

AUTOMOTIVE CONCIERGE

Effortless Ownership, Perfectly Managed

Specialist care, movement and record-keeping for
supercars, hypercars and private collections.

VF VEHICLE
FOCUS

THE PROMISE

We make supercar ownership effortless.

No chasing garages. No storage worries. No last-minute surprises. Just a car that is ready, correct and properly documented — every time you want it.

Think of us the way you think of the people who look after your other assets. A financial adviser protects your investments; Vehicle Focus protects the ones parked in your garage — quietly, consistently, and without you having to think about it.

Cared for

Checked, charged and serviced on a schedule — not when something goes wrong

Ready

Fuelled, clean and legal for the day you decide to use it

Recorded

Every job documented, so the history protects the value

Great cars don't fail loudly. They fade quietly.

Supercars and hypercars are built for precision, not neglect. The damage rarely announces itself — it accumulates in the weeks a car sits unused and unwatched.

01 There is never enough time

Demanding schedules and constant travel mean even the most passionate enthusiasts rarely have time to manage the finer details of ownership.

02 Small jobs become pressure

Flat batteries, tight service windows, relocations and paperwork deadlines turn what should be pleasure into another item on the list.

03 Neglect costs real money

Missed maintenance, incomplete records and poor storage conditions don't just inconvenience you — they silently erode performance, provenance and long-term value.

That gap — between how these cars deserve to be kept and how much time you actually have — is the whole reason Vehicle Focus exists.

Three principles we don't compromise on

Preventative, not reactive

We work to a schedule rather than to a breakdown. Batteries, fluids, tyres and storage conditions are monitored on a defined cycle, so problems are caught while they are still small and cheap.

Discreet by default

Our clients value privacy as much as performance. NDAs are offered as standard, vehicles are moved without fanfare, and nothing about your collection is discussed outside the arrangement.

Documented, always

Every check, service and movement is recorded. When it comes time to sell, insure or value a car, the history is complete, ordered and ready — because provenance is part of the asset.

“Supercars and hypercars are built for precision, not neglect.”

Preservation & Care

Keeping the car mechanically right and cosmetically perfect while it waits for you.

01

Scheduled Maintenance Checks

- ◆ Monthly and quarterly inspection cycles
- ◆ Tyre pressures, wheel rotation and tread checks
- ◆ Fluid level inspections — oil, coolant, brake fluid
- ◆ Minor repairs and adjustments carried out in place
- ◆ Discretionary preventative servicing tailored to the collection

02

Battery & Electrical Care

- ◆ Regular trickle charging and battery health monitoring
- ◆ Lithium-ion battery care for modern and hybrid systems
- ◆ Charger testing and voltage diagnostics
- ◆ Electrical system checks before every use

03

Detailing & Protection

- ◆ Pre- and post-use detailing
- ◆ Ceramic coating application and maintenance
- ◆ Paint protection film (PPF) fitting
- ◆ Flat-spot prevention for stored vehicles

04

Secure Storage

- ◆ Short-term secure storage solutions
- ◆ Condition-appropriate environments for long layups
- ◆ Routine in-storage checks rather than storage alone
- ◆ Collection and return arranged around your travel

Movement & Compliance

Getting the car where it needs to be, legally and without drama.

05

Relocation & Logistics

- ◆ Secure transport to events, racetracks or second homes
- ◆ Airport and dockside delivery for clients travelling abroad
- ◆ International shipping coordination
- ◆ Track preparation and event-day readiness

06

Registration & Compliance

- ◆ MOT, insurance and road tax deadline tracking
- ◆ Cross-jurisdiction registration support
- ◆ Assistance with custom registration plates
- ◆ Paperwork handled before it becomes urgent

07

24/7 Concierge

- ◆ Vehicle pick-up and drop-off for services or events
- ◆ Access to supercar meet-ups and owner events
- ◆ Upgrades and customisations arranged with trusted vendors
- ◆ One point of contact, whatever the request

08

Live Vehicle Tracking

- ◆ Tracking fitted and monitored on request
- ◆ Visibility of the vehicle during transport
- ◆ Added reassurance for stored and shipped cars

Value & Acquisition

Protecting what the collection is worth — and helping it grow.

09

Asset Management Reporting

- ◆ Detailed reports on vehicle condition
- ◆ Valuation trend analysis across the collection
- ◆ Complete, ordered service and ownership records
- ◆ Collection management support for multi-car owners

10

Sourcing & Pre-Purchase Inspection

- ◆ Acquisition support for specific cars and specifications
- ◆ Independent pre-purchase inspections
- ◆ Honest assessment before money moves
- ◆ Handover, registration and delivery arranged end to end

11

Photography & Film

- ◆ Professional vehicle photography and videography arranged
- ◆ Imagery for sale listings, insurance or records
- ◆ Wall murals produced from your own cars
- ◆ Vehicle-themed artwork sourced to commission

12

Bespoke Requests

- ◆ Requirements outside this list are usually possible
- ◆ Long-standing network of specialists and vendors
- ◆ If we can't do it properly, we'll say so and find who can

HOW IT WORKS

Four steps, then you stop thinking about it

Onboarding is deliberately simple. Most of it happens once — after that the arrangement runs quietly in the background, and you only hear from us when there is something worth telling you.

1

Conversation

A private call to understand the cars, how you use them, where they live and what currently frustrates you.

2

Vehicle audit

We inspect each car, review its history and paperwork, and flag anything that needs attention now.

3

Care schedule

An agreed cycle of checks, services and deadlines — built around your calendar, not ours.

4

Ongoing reporting

Regular condition updates and a complete record, with a single point of contact whenever you need something.

Owners who would rather drive than administrate

We work with high-net-worth individuals and collectors who want comprehensive management of their automotive assets — from a single hypercar to a garage of them. Discretion is not an add-on: NDAs are offered as standard, and every arrangement is private.

Our clients are based across the Channel Islands, the United Kingdom and Europe. Operations are run from the Channel Islands, with trusted associates positioned throughout the UK, Europe and further afield — so response times stay short wherever the car happens to be.

The client base is growing consistently, and we grow with it: adding capability and coverage as our clients' collections travel further.

WHAT WE'RE TYPICALLY TRUSTED WITH

A single car kept ready

One hypercar, properly maintained between trips, so it starts and drives correctly the day you want it.

A collection run as a portfolio

Multiple cars on one schedule, with condition and valuation reported together.

Cars that move

Vehicles shuttled between homes, events and circuits across the Islands, UK and Europe.

Records put straight

History, servicing and paperwork brought into order for insurance, sale or succession.

Channel Islands

Home base and primary operating region

UK & Europe

Associates positioned for fast local response

Worldwide

Shipping and logistics coordinated on request

WHO YOU'LL BE DEALING WITH

Lawrence Slatter-Buesnel

Founder, Vehicle Focus

Lawrence has spent his working life around performance cars — competing in motorsport across several disciplines, working hands-on with performance mechanics, and building a professional background in vehicle importation and international logistics.

Vehicle Focus began informally: looking after cars for a small circle of owners who trusted him with them. It became a business when it was clear how many owners had the same problem and nowhere reliable to take it. You deal with Lawrence directly.
